PORTRMEIRION SAFETY MEASURES

Portmeirion has complied with all Welsh Government guidelines for the risk management of Covid-19. We have carried out risk assessments on all aspects of the business, to protect our teams, our suppliers and our guests. Training has been given to staff on safe work practices and sanitising. We conduct temperature checks on arrival for all team members. We have allocated additional members of staff to focus only on ensuring cleaning and sanitising is carried out all day, every day. Anti-viral foggers are in use to sanitize public areas.

We have redesigned our restaurant to ensuring safe socialising by use of one-way markings, screens between tables and marking out socially distant points in line with the latest Welsh Government guidelines. We have made hand sanitiser available outside and within the establishment.

We ask guests to book tables in advance and to provide contact details to comply with Welsh Government regulations. When booking a table, arrival and leaving times are allocated. We kindly ask guests to please keep to these times. It takes longer to relay between services under current circumstances and we have fewer tables available due to social distancing requirements.

We will be delivering food and drink to your table in the safest way possible and using disposable menus, so they can be recycled (or you are welcome to take them with you). When tables are re-laid tablecloths are replaced and chairs are sanitised.

Our serving staff wash their hands regularly rather than wearing gloves. Gloves can be an aide to good hygiene they are not considered a substitute for a thorough regime of hand washing. COVID-19 can contaminate disposable gloves as easily as it can get onto people's hands.

For wine service, the first glass will be poured and guests will then pour for themselves.
